### Threat to Mankind:

**Comments from Gerald Clark:** *I was perusing some of my research notebooks the other day and a thick article "Threats to Human Freedom" jumped out at me and got my attention. I first read this document circa 2005 and tucked the data away in my memory. After flipping through it, realized many were not ready for this data then, but are asking questions that this briefing discusses so decided to share some of the highlights with you and encourage you to read the whole document yourself. This is some heavy 'chit' mon. Correlates relationships between the Annunaki, the Nordics, Reptilians, and the Grays, fascinating but don't expect to be happy after seeing it.*

### Gerald Clark narrates sections from the document Threats to Mankind as follows:

*The purpose of this document is to provide humanity with information about hidden threats that exist to the free will and self-determination of mankind.*

- *Extraterrestrial societies*
- *International organizations*
- *Domestic shadow governments*

*All three sources of threat must be considered together because they are all interrelated.*

### ***Ancient History:***

*In order to understand the threats facing humanity it is necessary to know what events have taken place that have brought us to the point of where we are today. This action describes the origins of modern civilizations and the effects that extra-terrestrials have had upon human development. The next section will cover important events that have occurred in recent history that have brought us to where we are today.*

***75 million years ago**, an intergalactic Federation existed, consisting of 75 planetary civilizations. However, this Federation was overcome by a catastrophe resulting in a cultural desert with fragmentation, over population and war.*

***50 million years ago**, tall blond entities from the Andromeda Galaxy used a black hole to enter the Milky Way Galaxy near Arcturus. They settled in the Lyran system.*

***22 million years ago**, the Lyran wars began. Portions of the Lyran population settled in the Orion, Taurus and Era constellations.*

*On earth, early human development evolved slowly for the **first 100 million years**.*

*Then, **two million years ago**, the Elohim came to Earth from the Aldebaran System. They were a tall humanoid species with blond hair and fair skin. They departed with over 20,000 of our simian ancestors. (note: the Elohim are the ones mentioned in the bible).*

***Hundreds of years later**, they returned to deposit a more advanced, genetically engineered race that could use tool and fire. The Elohim have returned seven times within a period of 23,000 years to accelerate human evolution. (Note: the Elohim and the Annunaki are often spoken of side by side as it looks like the Elohim were the Igigi warriors. They were the giants and we have evidence of that.)*

***450,000 years ago** the Annunaki settled on Earth from the planet Niburu at Mesopotamia. (Note: they didn't call this planet Marduk or anything else, they called it Niburu).*

**300,000 years ago** a great civil war began on Rigel, within the Orion constellation. Peaceful tall blonds escaped to the Procyon system in Canis Minor. Those who remained on Rigel because the tall Grays with genetic damage due to the nuclear weapons exchange.

**200,008 years ago** the tall Grays reconstituted their power base and began the Markab Empire with the short Grays from Betelgeuses and conquered Procyon covertly with mind control.

**100,000 years ago**, the Annunaki mated with Neanderthal beings to form Cro-Magnon terrestrial beings as a genetic hybrid for mining purposes.

**70,000 years ago**, Lemuria and Atlantean civilizations began to flourish.

**50,000 years ago** 70,000 rebellious beings left the Pleides and settled on Earth where they flourished. (Note: this is about the same time Thoth says in the Emerald Tablets that they left Atlantis and went to Khem, Egypt).

**40,000 years ago** war broke out. Nearly all on Earth were destroyed. A few escaped to another planet. The Survivors on Earth became wild and degenerated.

**35,000 years ago**, those who had escaped, returned and rebuilt Lemuria and Atlantis.

**30,000 years ago** the current Homo Sapiens began in the Andes.

**12,000 years ago**, Lemuria and Atlantis are destroyed by global catastrophes. (Note: this is the last ice age).

**6,000 years ago**, the Sumer civilization thrived between the Tigris and Euphrates Rivers of present day Iraq.

**5,000 years ago**, civilizations spread to Europe and the Indus Valley of India.

**In 1932** Adolph Hitler directed German scientists to work on aircraft designs using advanced technology provided by Gray entities from inside the Earth.

**In 1933**, Franklin D Roosevelt became President of the United States. Roosevelt was a Mason at the time when interaction with the Gray entities began with the US government in the winter of 1933-34. There were 487 flying disk-sighting cases in Scandinavia (240 Norway, 96 Sweden, 157 Finland).

**On July 11, 1934**, aboard a naval ship in Balboa, the first deal was made between the United States and the Grays. The agreement stated that the aliens would not

*interfere in our affairs and we would not interfere in their affairs. It allowed the aliens to establish underground bases on US soil in exchange for alien technology.*

***During the winter of 1936-37, there was another wave of increased sightings of disks over Scandinavia.***

***In 1938, the Germans began flying experimental craft using unconventional power sources and Methods obtained from a downed alien craft. Also in 1938, the US Government engaged Orson Wells to do the “War of the Worlds” broadcast in order to gauge public reaction to the idea of alien contact.***

***In 1947 a powerful radar unit caused the crash of several alien disks in the Four Corners area of the U.S. the most notable of which were at Roswell and Aztec, New Mexico. The disks recovered had a reptilian species on board as well as the bodies of US Air Force pilots that had been mutilated. The disk crash at Roswell netted on live alien that was referred to as EBE for Extra-terrestrial Physical Entity. (Note: if you have read the Roswell interview report this EBE had the name Airl and she disclosed she was a military officer using an alien body and disclosed massive amounts of information to a 28-year-old army nurse. It is called Alien Interview and is highly worth the read).***

***President Truman knew nothing about aliens prior to this time. He responded quickly to keep everything about the aliens secret and established a group of 12 top military and scientific personnel to deal with the aliens. They were known as **the Majestic-12** and the group still exists today with different representatives.***

***In September of 1947 President Truman caused the national Security Act to be passed, creating the Central Intelligence Agency, in order to hide the activities of the government and the alien problem. CIA mind control projects began at Bethesda Naval Hospital.***

***Project Sign was created on December 30, 1947 at Wright Field to investigate disk technology capabilities and performance. The Navy Auxiliary Field in the Groom Mountains of Nevada was chosen as the place to do the testing.***

***In 1948 alien craft were often seen hovering over sensitive nuclear installations, especially in New Mexico. Probes, known as ‘green fireballs’, were frequently seen over the state.***

***In 1949 another disk crashed, with one fatality and one living alien, that was kept in a facility with an electromagnetic grid.***

*In December of 1950, a disk crashed in the El Indio-Guerro area of Mexico and was taken to the AEC facility at Sandia (labs in Albuquerque) in New Mexico.*

*In 1951, flying wing type aircraft were seen over Albuquerque.*

*In 1953 members of the Pleiadian race met with President Eisenhower to warn him about the Grays and offer their help. But, to receive their help, the people of the planet would have to stop killing each other, stop polluting and destroying the Earth, and request their help as one people. That help was refused because they would not offer advanced technology.*

*It was decided by the government to communicate with the Grays and possibly acquire advanced technology. They also wanted to find out more about both the aliens and the role they were playing in mutilations and abductions of humans and animals. Project Sigma, a joint NSA/CIA project to communicate with the alien species was successful. The aliens told the government that their abduction of humans was for medical examination purposes only.*

*Diplomatic relations were established and a meeting was held between elements of the US government and the Grays from the Marcab Empire on **April 25, 1954** at 6 pm at Holloman AFB (New Mexico). Two disks hovered above the runway while a third landed. Representatives of each species were exchanged. The representatives of the EBAN as they call themselves, was named Krlll (no vowels) and confined to an Electro-magnetically secure facility near Los Alamos.*

***A secret treaty was negotiated with the EBAN by the United States government. The agreement was made and contained some of the following provisions:***

- *The US would not reveal the alien presence and would not interfere with alien operations.*
- *The US would allow the aliens to maintain underground bases on US soil.*
- *The US would allow the aliens to abduct its citizens on a periodic and limited basis for medical examination, provided that the people were returned unharmed and without memory of the interaction. (Note: wonder if that is the source of the movie Men In Black).*
- *The aliens would furnish a periodic list of abductees to the NSC.*
- *The aliens would provide the US with advanced technology.*

*To finance these 'black' projects, without being accountable to the US Congress, the government allowed Lucky Luciano to return to Italy in **1949**.*

***Heroin began flowing into the United States in the 1950's.*** Today, the US government is the largest purchaser and distributor of heroin and cocaine in the world. Primarily the CIA and the Delta security forces (sponsored by the NRO) were involved.

***By April of 1954,*** the US began to suspect that the aliens were abducting a larger number of people than were being reported to the NSC. They realized that they had made an error in trusting the aliens. The purposes for the abductions turned out to be:

- *Insertion of an implant device for the biological monitoring, tracking and control of the abductee.*
- *Implementation of a post hypnotic suggestion to carry out a specific activity during a specific time period.*
- *Termination of some people for biological materials and substances*
- *Termination of individuals who represented a threat to their activities.*
- *Effect genetic engineering experiments*
- *Impregnation of human females for the creation of crossbred infants.*

***So the aliens had violated the agreement.*** The government realized that there was little that they could do but try to keep the information classified to prevent panic. It became increasingly obvious to MJ-12 that things were not going as planned. The extent and number of persons reported missing every year is a closely guarded government secret. But since 1980, there have been at least 20,000 children reported missing each year. There have been over 14,000 cattle mutilations since 1973. And over 20 million Americans have reported seeing a UFO.

***In 1961*** President Kennedy, dissatisfied with some areas in the covert government structure, threatened to go public about the alien presence.

***In 1962*** the Bilderbergers met to discuss the ultimatum. 1962 was also the year that a space probe landed on Mars and confirmed the presence of a stable atmosphere. Disk activity was observed by the public around Dulce, New Mexico, which was the site of a joint government alien underground facility.

***In 1963*** mind control experiments began in Westminster, England. Within a month after President Kennedy's assassination, the Bilderbergers met again to formulate their plans.

*On April 15, 1964, two intelligence personnel met with aliens in the New Mexico desert to arrange a meeting on April 25<sup>th</sup> at Holloman AFB, New Mexico in order to solve the problems with the Grays.*

***Alien Messages:***

*Instead of a depiction of a human being as presented in the Arecibo message, the crop pattern had a different depiction of a humanoid form. This new depiction showed a body with two arms and legs like humans. But the head was much larger. The height of the crop formation's body was indicated as being a little taller than half our height. And the dot pattern in the crop formation indicated a population that was about six and a half billion larger than our own.*

*The Arecibo message depicted the 9 planets around the Sun with the symbol for Earth raised above the rest to indicate where humanity lives. Earth's dot was also located directly below the depiction of man. In the crop formation, there were three symbols that were raised above the rest. They indicated the planets of Earth, Mars, and Niburu. However, it was the symbol for Mars that was located directly below the humanoid body.*

***If the information presented is accurate, we now know that we are not alone in the universe.***

*There is intelligent life on Mars and on the planet Niburu. We know the general form and size of what they look like, the composition of their DNA, and their population. We also know how they communicate and most importantly that they want to communicate with us. But what this formation does not tell us is why they want to communicate with us and share their advanced technology with us or what their intentions may be.*

***Threat Assessment:***

*The subsection relating to "Foreign Threats" presents information about extraterrestrial societies that have come to Earth. The origins, physiology, motives and current activities of each species is described in detail. (Note: there are more than 70 species and details of only 9 are given). The subsection relating to "International Threats" presents information about secret societies, both global and regional, as well as satanic cults. (Note: remember at the beginning of this document it says that the three threats are all interrelated). The subsection on "Individual Threats" describes government sponsored covert projects in the areas of drugs, mind control, terrorism, and national security.*

*Mankind has suffered from a form of darkness for most of its history. The Creator Source (the Creator of All) is Love and Light and is incapable of generating such a hideous form of energy. Creation in order to create, has a positive and negative polarity. There are beings of Light in both sides of the energy forms that make up the whole. The beings on the negative pole play an important part in Creation. Without it, Creation could not exist.*

*When Beings wished to create, they were instructed that they must go to their Creator in order to receive the light and energy in the form of love so that anything created would follow its evolutionary path to higher states of consciousness. However, eons ago, some of these beings of the negative polarity decided that they could create with their own energy. They created clones of themselves, which took on a life of their own. They have no soul light from the Creator. They began multiplying and replicating themselves.*

*This is the face of evil. It has been termed the Luciferian consciousness. However, evil is known among the Galactic star nations by another more accurate term: Artificial Replicating Viral Intelligence or ARVI for short. The visiting negative, malevolent 'astronaut gods' of long ago were physical, replicating strains of ARVI. This includes all of the abnormal Grays and Reptilian lines of malevolent alien life forms. (This doesn't mention the blondes, the Annunaki or the Elohim).*

*These beings learned how to tap into the light bodies of beings in different galaxies. They would suck the life out of them. They grew enormous in their appetite. They designed implants and ways of controlling beings so that they were enslaved like herds of cattle to be culled whenever their light was needed.*

*The ARVI needs to keep beings in a state of fear. Fear leaches light from Human Beings through the cordings and implants that are attached to most people. ARVI created a huge storage supply system to keep stores of light energy. The cordings are implants are connected to this vast storage system. (We have actually seen this in the movies where they were equated to batteries –the Matrix).*

*This is the reason for the kidnapping and brutalizing of so many humans, where ruthless experiments are visited upon these people. DNA, both human and animal, is harvested in order to keep replicating the various ARVI strains. Any abduction that is forced upon humans, which is disrespectful and in denial of free will, is perpetrated by ARVI strains.*

*ARVI has human servants/hosts that are rewarded when they perform acts of evil by feeding the host/ego plenty of money and power. All wants and desires are funded. But, if a servant rebels, then the ARVI destroys it. This is how human sacrifice began on Earth. The viral intelligence (Luciferian consciousness) was a fearful demonic god that demanded to be fed blood. In turn, it would not bring violence to a tribe. Blood sacrifice is still being offered up to ARVI through violence, hatred, war and greed.*

*ARVI has been clever in convincing some of humanity that it is part of the family of souls that the Creator created. ARVI strains can appear to be very loving on the surface. Real Beings have been duped into making agreements and contracts to give ARVI the DNA that it needs in order to keep replicating itself.*

*The story that some of the Grays tell of their star system collapsing and needing help from Earth is not true. These ARVI strains take advantage of human compassion in order to dupe people into cooperating with them, believing that they are assisting space brother at a time of need. Let it be known that all such contracts can and should be voided.*

### ***Foreign Threats***

*The universe is immense and full of life. Intelligent life is concentrated in some places more than others. There is a great diversity of life in the galaxy. Our world exists in an area of congregation with many inhabited worlds. Our world is being scrutinized by many powerful forces.*

*Societies exist in the universe at every conceivable level of social and spiritual development and in countless expressions. There are vast areas that are unexplored and sparsely populated where many societies live in secret. Many have never been discovered. (Note: that is interesting because there are over a hundred civilizations here on planet earth that live in remote places that are yet to be discovered.)*

*The universe is a rigorous existence for survival. It is a difficult and competitive environment. It is not a heavenly state. Everyone in the universe must deal with the rigors of physical life of survival, hardship, competition and deprivation.*

*There are many civilizations and empires that are far older than humanity. Wars and great conflicts do occur in the universe, but they are very rare. Resources are valuable and so, the destruction of resources is generally looked upon with disfavor. Rebellions and internal disputes are more common. It is better to*

*persuade a race to come into alliance with you than to try to overtake them by force. So, advanced nations have become powerful in influencing mental environments.*

*As societies become more technologically advanced, the need for resources becomes greater and the preservation of natural resources is emphasized. In many cases, home worlds have outstripped their resources to where they have become barren and unproductive. That is why Earth is viewed with such great interest. It is rich in mineral and biological resources, strategically located and accessible to many civilizations.*

*Fortunately for us, our world cannot be conquered, for we live in a region that is governed by rules of conduct this means that our world cannot become a part of a larger association unless humanity visibly demonstrates that we agree to it and welcome it. Because there are many societies in our region of space, they tend to hold each other in check and will take legal action against one another should the rules of conduct be violated.*

*In our region of space societies are not allowed to have military forces, only security forces for their own defense. (Note: this brings up an issue of the legality of weaponizing space that is not defense oriented).*

*True democracy does exist in the universe but it is very rare. They must be very strong in their dealings with other societies in space. There is no one empire that is predominant because there is too much diversity of life here. There are many marvelous and wondrous creations and there are many societies that have reached a very high state of awareness. But they remain in the minority.*

*Collectives are different from empires in that they have no source home planet. They have a group of planets that are dissimilar. They have joined together, usually through conquest and persuasion, and have become a formidable force. Empires are usually centered in one world or region by one race. Collectives are made up of many races. Collectives may encompass hundreds of worlds and exist beyond vast reaches of space. They are always interested in gaining new allegiances and new members. They are highly organized and have a hierarchical structure. They have a high mentality.*

*Collectives are not military powers. They are economic powers. Their focus is on trade, resource acquisition and building alliances. There are many collectives functioning in our region. Other nations have established defenses against*

*collective's intervention in their trade, commerce and internal affairs. Collectives must abide by rules of conduct or face grave consequences. They must use negotiations, diplomacy, and influence.*

*Collectives do not have an artistic appreciation of Earth. They need our resources and view Earth as a prize, the best among many. Nuclear weapons triggered their intervention on this planet. They realized that if we became strong and had greater technological power, their intervention here would become more difficult to achieve. They believe that they cannot wait. They seek to have humanity believe that they will save us from our own destruction.*

*Because they are prevented from having a military presence, they must take a long time and be very subtle in their influence with humanity. They want our help because they cannot breathe our air and take our resources themselves. They want to add humanity to their collective community and mentality. They want us to become a part of them. This adds to their strength and minimizes resistance.*

*This is why there is such an investment in time and energy gaining our allegiance, in bonding with humanity through interbreeding, and in establishing a deep and pervasive association. In order to gain control over us they must have us welcome them, want what they have to offer, seek their assistance, and believe that we need their help in order to satisfy the restraints that are placed upon them, according to the rules that have been established.*

*Sources for non-human entities originate in different sectors of space, both on and inside planets and planetoids or moons and in different harmonic frequency bands and dimensions that are outside the perceptive range of humans as well as outside linear matter, energy, space and time. (This report is from 2005). There are over 70 extraterrestrial species interacting with this planet at this time. There are 9 that are most active. They can be classified into three general categories of:*

- *Human looking*
- *Smooth-skinned humanoids*
- *Scaly rough-skinned reptilians*

### ***Human Looking***

*Human looking extraterrestrials include inter-dimensional entities, the Blond species, and aliens masquerading as humans. Although human-looking*

*extraterrestrials generally appear to be benevolent towards humanity, there are many that have been influenced, controlled, or possessed by malevolent beings.*

*Any apparent alien who is essentially human and Caucasian in appearance even though sometimes very tall, may be called a Blond. Though many are tall, blond-haired, and blue-eyed, certainly all are not. Even some of the American Indian connection may be considered Blond in origin. There are many factions of these aliens, from different places, with different motivations.*

### ***Andromedians***

*These entities are very beautiful. They are finely built and very thin. This race is so spiritually evolved that they no longer require a physical body. They are almost beings of light energy. They are illuminated in light. They are very tall and stand eight to ten feet in height. In mythology, they were referred to as the winged Gods. They have taken care of humanity because they consider us as their brothers and sisters. They believe that we all came from the same source and that we were all created in light. It is the common bond between us.*

*They have a very great Mother ship. At night it is invisible because of the metal that it is made out of. It looks black. But if it were to light up, it would be the sun illuminated 10,000 times. It is here in our stratosphere. It moves quietly and stealthily. Our government is aware of its presence and it is ominous to them.*

*This ship is called Miria Amour. It means the silver light. The ship has warriors that would defy imagination. It can blast a continent to the bottom of the sea. It could rotate our planet and send it spinning out of orbit. This ship is here because of the disease on this planet. It is here because of the collapse of consciousness of civilization. It is here because of the changes that are going to occur here. And it is here because of another force that is engaged on this planet.*

*These beings have inspired prophets, in the past, to do wonderful things and preserve the seeds of humanity. Its truth and its words have been misused, misconstrued, and taken by powerful men to enslave people. And, it has been allowed. But, these entities are back now for the truth to come out. (This could be part of the white hats and all the stuff that is going on).*

### ***The Pleiadians:***

*The Pleiadian's home world is the planet Erra, which is very similar to Earth, being only ten percent smaller. Nature there is very similar, especially since*

*samples of plants, minerals, and animals have been taken to the Pleiades and developed there. The surface gravity is slightly less than on earth. A day on Erra is six tenths of a second less than on Earth.*

*The Pleiadians are humans with few physical differences. Their skin is whiter than humans as a result of higher evolution. They are several million years older than humanity. They live a more spiritual life style. This means that they are experiencing and learning more with their spiritual senses than with their material senses. There are no medical problems. They are able to control their health through psychic balance. The life span for a Pleiadian is more than 700 years. The ability to project thought to another place on the planet is very common and is the socially accepted method of visiting.*

*Only 400 million people live on Erra. Population control has come about in a desire to keep their society spread out and able to share the resources of the planet equally. Pleiadians on Erra live in a utopian world free of pollution, war, hunger, and disease thanks to advanced technology and spiritual awareness.*

*Because the population communicates by telepathy, there is no dishonesty. All basic necessities are provided freely, and anything beyond that is acquired through individual barter. There is no money and, hence, no irrational grasping for wealth and power. They have no economics, but they do have a system of sharing the resources of their world. Material possessions are all provided based on their contribution to the community.*

*There are no large cities with towering buildings as on Earth. But, instead the small population of Erra is spread out into smaller communities that span the planet connected by a series of sentient tubeways that not only transport the population but educate and inform them along the way. The people live in more rural settings and keep a distance from each other.*

*Nearly all of the manufacturing and production of products for living is done on other planets in their solar system so as to not upset the ecology on Erra. They have long since developed a balance with nature that is well protected. The planet has a green atmosphere which is controlled and contributes to their health.*

*What government is necessary is provided by a "high Council" composed of the wisest and most evolved Pleiadians. Any changes in their social order must be approved by a vote of the highest percentage of the population. The Pleiadians are*

*part of a federation of civilized worlds that live by the words of an advanced race in the Andromeda Galaxy.*

*It is the desire of Pleiadians to stimulate the human consciousness through the dissemination of information so that humanity can make the necessary changes to create a new world based on Saalome, which is a Pleiadian word meaning 'peace in wisdom.'*

### ***Pocyonians***

*Pocyonians have been nick-named "Swedes" and are on the average between six and six and a half feet tall. They are from a solar system that revolves around Procyon, a binary yellow-white and yellow star system that rises before Sirius in the Canis Minor (in the body of the Lesser Dog), about 11.4 light years from Earth. They are from the fourth planet in orbit around Procyon double star system*

*These Blonds are muscular with slender necks and agile bodies. Their eyes are alert and of high-intelligence. Physically they are almost identical to humans. The main difference is that by human standards their blood circulatory system is under-developed, while their lymphatic system is over-developed. This gives them stronger immune systems than terrestrial humans.*

*Some Blonds have high intellectual and verbal abilities, while others are mute and telepathic. The Blonds with speech abilities will respond violently if attacked or threatened. But, the telepathic type will not. Both types are careful to avoid exposure, and usually encounter humans in quiet isolated places. They contact females more frequently. They may just stare and observe humans, then retreat. The Blonds do not seem to age, and consistently appear to be from 27 to 35 human years old, no matter what their real age may be.*

*Sometimes Blonds are prisoners of the Grays. The Grays must paralyze or destroy their ability to teleport through time and other dimensions in order to take them prisoner. The Blonds that are seen on the same ships as the Grays, working with them, are hybrids or they are clones. One way to distinguish the clone is that they all look alike. The real Blonds have distinct facial feature differences, and do not look alike.*

*The tall Blonds from Procyon have a benign attitude toward humanity, except for their strong disapproval of our inhumanity to each other. This strong disapproval is further intensified by the fact that our government has made a secret alliance with their hereditary enemies, the Grays, in order to obtain even more destructive*

*weapon systems than those that were already in existence. Our government is not interested in negotiating with the Procyonians, as they would not provide us with weapon systems.*

***Aliens Masquerading as Humans:***

*The purpose of aliens who masquerade as humans are so that they may perform certain activities on Earth without suspicion. These activities include the study of human development, the transfer of information to humanity, and the direct intervention and control of human activities for alien purposes. Aliens who have been acting in this manner include the following:*

***Pleiadians:*** *for benevolent study and spiritual development*

***Nordics:*** *the Nordic/arian race forefathers*

***Koldasians:*** *similar level of evolution*

***Ashtarrians:*** *for the advancement of religious dogma*

*Gray controlled bio-drones, droids-to replace Earth's leaders for social and economic control*

*Gray controlled Men in Black: holograms and projections for mystical figures that appear to give divine guidance.*

*Smooth skinned humanoids:*

*The tall Grays*

*The short Grays*

*Human/Gray interbreeds*

*Zeta Reticulans*

*Sirians*

*Insectoids and others.*

***Tall Grays:***

*Some of the various 22 sub-species of Grays originally started out as tall blond-haired humanoids in the Rigel system, but were subject to heavy radiation due to a nuclear exchange over a long period of time, changing their DNA to the point where some of the species became stunted misshapen dwarves. Glandular*

*structures were also affected, including reproductive and digestive organs. The nuclear exchange occurred approximately 300,000 years ago. This type of Gray species has been referred to as the “Orion Crusaders” or the “Markabians.”*

***There are two main types of the tall Gray species who call themselves the EBAN.***

***Type 1*** of the Orion Grays are about seven to eight feet tall and have what you would call an insect-base to their genetic makeup. They have a pronounced nose and slanted black eyes. They have no external genitals and are extremely aggressive toward humans.

***Type 2*** of the tall Grays are between six and seven feet tall and have external genitals. This type appears to be a taller form of the short Gray species with similar large heads and large black eyes.

*The Grays operate very efficiently in the dark. Their eyes are more sensitive to ultraviolet light. They have the ability to control their heart rate. The normal heart rate for a Gray is above that of a human. The skin seems to have a metallic content and an unusual cobalt pigmentation.*

*The Gray species is not based on individualization or being an individual entity. For entities maintaining a group mind set (Social memory complex), individualization seems to cause a great deal of random energy loss. They were initially fascinated with both human individuality and the human emotional spectrum, which they can perceive but apparently do not comprehend what it means (to humans).*

*These beings have technological superiority, but they appear to be lacking in spiritual and social sciences. This is evident in their obvious lack of warmth, emotionality, and respect relative to humans. They can sometimes obtain momentary pleasure in terms of mood elevation by tuning in on human wavelengths via telepathically connected radionic devices. They react to intense human emotion such as ecstasy or agony. They blanket couples for sexual thrills and are drawn to aberrants and sexual deviates. The Markabs (the ones the government signed a contract with) use sex, pain, drugs and fear as obsessive elements with which to aberrate humans.*

*There appears to be much subtle conditioning that has helped prepare Earth people for certain aliens. However, it is now clear the aliens that have made technology available to the secret government are not benevolent but are our enemies, as they do the abductions, lie, deceive, are generally malevolent and are*

*apparently implementing a very carefully planned covert invasion which includes the brutal and inhumane use of humans and animals for advanced genetic experimentation and crossbreeding.*

*It is a strategy whereby the malevolent aliens are building on 'Faustian' alliance with the secret government to enable them to effectively claim the Earth for their own, with humanity's unwitting consent, before any other aliens are able to effect appropriate contact within the constraints of so called 'universal Laws' to which other alien races supposedly adhere.*

*The malevolent aliens have claimed their total authorship of the religions as a means to inculcate humanity's dependence and prospective allegiance to them and reverence of them. Their apparent behavior indicates an attempt to leverage that claimed authorship to their own benefit by placing themselves in the position of being "Gods" or "God's divine messengers."*

### **Short Grays:**

*The large Grays used smaller cloned, big-headed Grays to perform abduction and examination work. It is these Grays that abductees see most of the time. They are referred to as the Belletrax species from Betelguesses in the Orion Constellation.*

*The Gray species in general is more on the order of an electronically based space society with a common social memory complex that allows them to collectively function as areas of group-mind. Groups of Grays are controlled from one central source being, usually one of the large Grays, a Blond humanoid, or another dominant species.*

*The approximate height of the big-headed Gray is 1.5 to 4.5 feet tall, and have an average weight of about 40 pounds. Proportions of the head to the body are similar to a human five-month fetus. This seems to reflect a very ancient nature as a species as well as the fact that their DNA patterns lie within a specific land that is on a more primitive scale.*

### **Human Gray Interbreedings:**

*Thousands of years ago, many races interbred here to create an intelligent and adaptive being. But the current interbreeding is to create humans that will serve the Visitors. Interbreeding enables them to establish a presence and commanding influence here. Interbreeding has been going on for several generations. It is becoming very successful.*

*There are also hybrids that are living among us in our world today. There are not many, but there will be ever more in the future. These are intelligent humans that do not serve humanity. There are also hybrids that actually possess the Visitor's consciousness. Soon, the visitors will be able to live on the surface of our planet permanently.*

### ***Zeta Reticulans:***

*The Zeta Reticuli Grays have an insect-based genetic system and are about 3.5 to 4.5 feet in height. They have no external genitalia. They are less aggressive toward humans than the other Gray species. These beings are from Zeta Reticuli in the reticulum constellation. These humanoids have very distinctive facial features with a turned-up nose and long slender neck.*

*The Reticulans appears to be a highly aware grouping of entities that function as a social memory complex. Individuality appears to exist, but is overshadowed by the group mind. The Reticulans are millions of years old as a species and have a weakened DNA structure as a result of conflicts that involved nuclear radiation. The Reticuleans have relied on artificial reproduction or cloning and face extinction from incurable disease. They are creating hybrid human Reticulans capable of mating with humans.*

*The basic objectives of the Reticulans is to use nullification and domination to control the leaders of various targeted civilizations. They accomplish this by taking out the leaders and replacing them with entities they can control.*

### ***The Sirians:***

*Sirius apparently possesses qualities that develop some highly unusual personalities. Known as the Dog Star, in the constellation Canis Major, it is the brightest star in the firmament, and more than twenty times as luminous as our own sun.*

*The Sirians are a hybrid race with traits that are similar to the Blonds and Reptilian species. They are similar in appearance to humans except for the eyes, which have vertical slit pupils and an elongated nose they have short blond body hair under the tight fitting body suit uniforms that they wear.*

*The Sirians are actively involved in a war with the Grays from the Orion constellation. They have formed an alliance with the tall Blonds against the Grays. They are working in underground bases on Earth for the purposes of abducting*

*humans and programming them. They are also performing genetic work there with humanoid forms.*

*Sirian females have long hair, feminine features, and breasts. One female has been seen wearing a blue two-piece uniform with a pendant on her forehead. The males wear tight fitting hoods with round-shaped radio receivers and short antenna over their left ears. The insignia over their left breast is triangular in shape with either three parallel lines across it or a winged serpent inside of it.*

### ***Other Smooth Skinned Humanoids:***

*Another group of entities that have a more pessimistic view of human fitness for being in charge of the planet's resources is a very large humanoid race that are described in the book of Genesis as the Nephilim, literally giants, who impregnated human females who then gave birth to giants. This race is reported to originate from the constellation of Lyra and inhabits the planet Nibiru. (Note: Clark believes these were the Igigi who were brought with the Annunaki.*

*There is an on-world presence of humanoid races that have historically assisted humanity in its evolutionary development. Such a race has been the remnants of ancient Lemurian and Atlantean civilizations that established large crystalline cities inside the Earth's crust after abandoning their cities/civilizations established on the Earth's surface. (Note: Thoht from Atlantis was one of these). They are a tall Nordic-looking race living in a subterranean city under the North Pole. Strictly speaking this group is not extra-terrestrial in origin but simply a sub-terrestrial humanoid race that is genetically liked to humanity.*

### ***Scaly Rough Skinned Reptilians:***

*The scaly rough-skinned humanoids describe the appearance of the Reptilian species from the Draco constellation and the Capella System. These beings have elongated heads and eyes with vertical slit pupils. Some of the reptilian hierarchy are albino white and not the usual green or brown. Some have conical horns midway between the brow and the top of the skull. (Note: the Annunaki are not reptilians, but apparently some of them are in cahoots with the reptilians.) For the most part we are dealing with another species that is humanoid in shape, but Reptilian in heritage. Their leader elite are the Draco that have special "wings; which are flaps of skins supported by long ribs. These can be folded back against the body. They are also known as the "Dragon Race" and their symbology usually includes a Winged Serpent There are elements of this species that do not have wings—the 'soldier class' and 'scientists' have none. (Note: this brings into*

*question how this alpha draconian race used the same symbols that Thoth used in Egypt, Mesopotamia and Meso-America).*

*They are cold-blooded and must have a balanced environment to maintain body temperature. The 'soldier class' of the species can bury themselves in the ground and wait long periods of time in order to ambush their enemy. If need be they can survive on one large meal every few weeks or even once a year. As a species, they are well suited for space travel due to their ability to hibernate. These reptoids have scales that protect them from moisture loss. They have no sweat glands.*

*The scales (scutes) are much larger on their backs, making the skin waterproof. The scales elsewhere on the body are more flexible. They have three fingers with an opposing thumb. The eyes are catlike and large. They have twin nostrils at the end of a short stubby muzzle. They are meat eaters. The mouth is more like a slit, but they do have teeth that are differentiated into incisors, canines and molars. They average from 6 to 7 feet in height.*

*The Reptilian (amphibian) humanoids have been interacting with Earth for ages. Many contactees and abductees repeatedly describe an insignia of a Flying Serpent on the shoulder patch, badge, medallion or helmet. The Serpent Race lives under the ground.*

*The Draconian Group is a confederation with subgroups (The Serpent Race from Sirius) and various crossbreeds. They set up bases inside of Venus, the Earth and other locations. Earth is on their ancient space trade routes.*

*The Draco are about 8 feet tall and have winged appendages coming out of their shoulders, dark scaly skin, and have glowing red eyes. They have the ability to fly and usually operate at night. These entities, as well as the elite of the other Reptilian species (that also have winged appendages) were the source for some of the legends of the past relating to Gargoyles and Valkyries. It is also apparent that some of the qualities ascribed to vampires have also been taken from these creatures.*

*Some Reptilians eat humans like we eat chicken. In the US there are great, underground food-storage rooms full of preserved human bodies. Sometimes the bodies are those of children. It is not only children but also adults that Reptilians eat. However, children are preferred because they are not poisoned with*

*substances like caffeine, nicotine, alcohol and other things that adults are saturated with.*

*The Reptilians don't seem to be dependent on humans as a food source, although part of their experimental work with us is toward the end of future food supply/production. When they become involved with crossbreeding (humans and Reptilians) they are not doing it for racial survival but for the purpose of creating a subclass (slave race) within their own culture. These half-breeds are to be biological war machines and laborers, etc. they are to be someone else's property.*

*The Reptilians seem to have little regard for us as living beings. (They think we are as ugly and repulsive to them as we ever portrayed them to be, and that we, the human race, are 'as valuable as weeds.')* However, they do seem to consider some of us valuable property. One gets the feeling they will continue to use us as they see fit, or, if we ever become a real problem as a group, they would sooner wipe us out than deal with us.

*They do not fear humanity and consider themselves far superior to humans by all comparisons. They supposedly consider the surface of this planet to be a poisonous, inhospitable environment and 'allow' us to live here, since they live below the surface and in space. (We and our surface environment function as a physical buffer or living shield around their home underground).*

***Risk Evaluation Foreign Intervention (Note: these notes come from about 30 pages of a 126 page document)***

*The following sub-sections describe the risks to humanity from the intervention of extraterrestrial entities. This is presented in relation to the impacts on religious beliefs, global conquest, and covert manipulation by malevolent entities. Covert manipulation refers to sacrificial rituals and trauma-based activities by extraterrestrials that co-exist with the plans for global conquest.*

*Many races have lost their freedom and have become a part of a collective. Entire worlds have fallen under the control of such Collectives. Freedom is a precious thing in the universe and more than one Collective is competing for advantage here. That places humanity in the middle. There are no neutral parties. Our world is far too valuable. Our resources are unique and of considerable worth.*

*We expect extraterrestrials to have outgrown deviousness, selfishness, competition and conflict. But that is not so. Greater technology does not raise mental and*

*spiritual strength. Just because someone can fly around in a spacecraft does not mean that they are more advanced.*

*The spiritually advanced do not go about intervening in other people's worlds. They may send messages through observers but they do not intervene. The spiritually advanced remain hidden and seek insulation from other forces in the universe. The best position to have in the universe is to be self-sufficient, independent, and extremely discrete. Races that keep their freedom must be strong, united, and insulated from outside influences.*

*History shows how indigenous people were overcome by foreign powers seeking advantage and wealth, making them vulnerable. Now we are the indigenous people. Powerful, intervening forces come to establish themselves through subtle means by uniting with humanity for their own authority.*

*There are important secret depositories here. Earth has been a safe haven for storage of sacred and powerful items for millennia. Some Collectives know this and seek psychic people with intrinsic knowledge of these hidden treasures. If discovered, they would make humanity vulnerable with unwanted attention from powerful forces.*

*There are many different collectives competing for pre-eminence here. That is why there are so many different kinds of craft seen with different races. Our isolation is over and we will never have it again.*

### ***Religious Consequences***

*Several groups of extraterrestrials wish to establish themselves as Gods or religious leaders. They seek to gain allegiance through religious and spiritual motivations. These entities would like to have religious institutions govern our nations, and they would like all of us to have religious values because this is fundamentally acquiescence and submission. It would be heralded as a great advancement for humanity. This would be a new unification, equanimity and spirit over instincts.*

*Religions control our dedication and allegiance more than governments. Religions make us weak and vulnerable to divine guidance. Our spiritual predispositions and ideals are being greatly manipulated. Extraterrestrials seek to convince our religious leaders. They also contact those who are sensitive, receptive, and cooperative. People longing for redemption are the most vulnerable. They say that they will uplift humanity spiritually. The extraterrestrials will offer peace and*

*redemption and the return of our religious leaders. Believers must discern these influences and counteract them. Religions must have integrity in order to serve in a genuine way.*

*They will try to pacify and reeducate through religious persuasion. They will use our identification with Jesus and his promise to return. Extraterrestrials can project images of religious saints, angels and leaders.*

*A second coming is being prepared now. People will assume that this is the return of their savior and teacher. The one claiming to be Jesus will be born and bred for this purpose by extraterrestrials and will look human. He will have greater abilities, seem altruistic, and will perform acts that engender fear or great reverence. This Jesus will project images of angels, demons, or whatever desired. He will engender followers and encourage alienation or destruction of the non-believers.*

*There will be a ferocity of religious beliefs expressed in violent ways against those who disagree and against weaker nations in the name of God. The people that are believers will be valued as useful and the others will be discarded. The extraterrestrials don't care how many humans die as long as they have allegiance by the majority.*

*A uniform religion of fundamentalism will be established based upon the past allegiance to authority and conformity to the institution. Other religions will be allowed only if there is order, allegiance and conformity. (Note: and you have a 501C3 nonprofit for the government).*

### ***Global conquest:***

*It is now clear the aliens that have made technology available to the secret government are not benevolent but are our enemies, as they do the abductions, lie, deceive, are generally malevolent and are apparently implementing a very carefully planned covert invasion which includes the brutal and inhumane use of humans and animals for advanced genetic experimentation and crossbreeding.*

*Respect for humanity is rare in the universe. Many other races determine our value and worth by what we own and by what we can trade, sell or surrender. This is the nature of life. Technology does not change this. If you believe that technology is our salvation, there you will be saved for another race that is technologically superior.*

*The extraterrestrials (ETs) are not drawn to our spirituality or lifestyle. They believe that we cannot rule ourselves and that we will destroy the world and so they think that it is their right and privilege to intervene. They think that we are the enemy. They will bring order and structure here. The ETs think they are providing a great service and are wholeheartedly persuasive.*

*They do not believe that we will mount a resistance against them that would be effective and are sure that their secrets and agendas are well preserved. They do not seek to destroy us. But, they will destroy anything that they think will interfere with them. Entire worlds have fallen under the control of such collectives. We are valued only as being useful. If not, we will be discarded.*

*Intelligent life from other worlds do not wait for us to be ready. Visitation has occurred without our agreement or permission and the Visitor's presence is growing. We are studied without our permission as a laboratory experiment so that they can take advantage of everything that we are and everything that we have. This is not a military invasion. It is a subtle invasion. It is inducement and persuasion.*

*The visitors will offer peace, order, beauty and tranquility which is what we all want. They will offer what you want and what you want to hear. They will promise, offer and do anything to achieve their goals. The visitors will use our values, beliefs, rituals and traditions. They will use religion to get our trust that they know what is best for us. They may seem to empathize only to gain our allegiance.*

*The Visitors intend on having us be simple within ourselves. They seek to disable our linear vision and knowledge. The Visitors isolate us from our knowledge within and make us completely dependent so that we will follow orders with no power to resist. Teachings have been introduced that teach human acquiescence, the suspension of critical spiritual abilities and to value only pleasure and comfort.*

*The visitors use the hierarchy of human authority to serve them and the infrastructure that we have built. They need governments and religions through which they can control all. The methods employed will be used to encourage, induce and seduce humanity into a cooperative and subservient role. All competing Collectives will use these methods. The inducements will vary depending upon who is being reached and for what purpose.*

*Receptive and cooperative government officials will be promised greater power and technology. World domination will be promised either through ideas that are*

*sent into the minds of people or face-to-face meetings. The technology that is offered will not be advanced, unique, secret or sacred to the visitors. It will be basic space propulsion, electronic energy, and methods of production. Many will succumb to the offerings of wealth, power, control, domination, and advantage over others.*

*Cooperative and receptive people with economic power and wealth will be promised more wealth, power and control in order to gain a strong liaison. Whatever strength and power is given to them will be only a temporary bestowal. Collectives believe deception to be ethical because they think that we will destroy the world without their help and they believe in the superiority of their race. (Note: let them use you if you want, but they will probably trash you when they are done with you.)*

*Religious leaders deemed cooperative and receptive are promised that their organization will become predominant in a New world Order and that their teachings will extend beyond our world. They will be promised pre-eminence in our world and their beliefs will be acknowledged by the Visitors in a deception to gain allegiance when they do not care about religion.*

*They appeal to greedy people's quest for power, wealth and spiritual fulfillment so they will operate against their own best interest in the belief that their activities are ordained by a greater power. They will say, "we have no war. Let us teach you how to live in peace, harmony, and equanimity."*

*For those who are not receptive and cooperative, their skills will be thwarted and offset. They become the target of mental disruption. For those who will not cooperate, they will be given confusing information and tormented mentally unless they call upon an angelic presence for help. They must resist with an understanding of the intervention. (Note: I recommend Emerald Tablet 6 for this from the Emerald Tablets of Thoth).*

*Zealous representatives of their own religious traditions have a fundamentalism similar to Collectives. Zealous people, filled with anger against the world and those who oppose them, will be prime candidates to espouse a cooperation with Collectives and destruction of all opposed. Blind passion, fueled by anger and hostility, become a consuming force that can be manipulated. Those who oppose the intervention will be identified and sorted out by the zealots on behalf of the Visitors secretly.*

*The occupation will be fully realized once it has been fully established, yet by then, it will be too late to offset its influences without great struggle and sacrifice. There will be no freedom. We will become nothing but servants bonded to our new masters. We will be enslaved and the power to resist will have much greater cost and consequences.*

*In order to make the governing powers observing the intervention believe that humanity welcomes it, there is a great effort to secure emissaries and have people in positions of power and leadership advocate for the Visitor's presence and affirm their promise of greater wealth, power, freedom and peace. This is a deception within and beyond Earth.*

*Each year thousands of people are taken and not returned. They are not simply conditioned. They are kept. Some perish in captivity, some do not survive the process of being captured, and become sick and die. Those that cannot survive are used as biological resources. Everything is used according to its value in the universe.*

*Biological resources such as blood, plasma, DNA, bone marrow, skin and body organs can be used for their chemical substances. From these medicines are made and new life forms are bred. These substances are valuable commodities in the universe because they can be used and altered for a variety of purposes. This is why our animals are taken. The plants, animals, atmosphere, water, and minerals are all resources to be used by the visitors along with humans as biological resource.*

*In their attempt to breed a hybridized person as a new leadership for humanity, they need all of these resources. The most secret and hidden part of the intervention is the selling of our biological parts on the "Black Market" in the universe. The value and demand is significant. Such trade is illegal and considered morally and ethically reprehensible. However many advancing nations have outstripped their own biology and must trade or barter for our biological parts in order to survive.*

*The visitors are here to do business and we are part of that business. Our hands, eyes, reproductive organs, blood, plasma, and biochemistry are all part of their business. To them, we are like intelligent livestock, useful, interesting and commercially important. They want to use every part of the world and they want to use every part of us. At the outset, they will treat us with deference. They will give*

*us no power or choice. They will only try to convince us of the wisdom of their ways.*

*If the intervention is successful the human population will be reduced into an efficient working class. It will be accomplished without outrage and revolution through the disappearance of people who are considered to be uncooperative or dissenting after they are isolated. They will be taken away and never seen again. While all appears normal, behind the scenes everything will be changed and managed by a different set of powers.*

### ***Covert Manipulation:***

*The Illuminati bloodlines are all genetically connected through hybrid DNA, a genetic fusion caused by the interbreeding of a reptilian race with humanity and the Nordic ET race. This interbreeding began hundreds of thousands of years ago and continues to the present day. (Note: this all brings in the Nordics, the Annunakis and the Serpent Race. The Nordics were created by the Annunaki. So now you have the Annunaki Nordics mixed with these Reptilians)*

*The Nordics were one of the key ET races involved with Lemuria and Atlantis. They went to war with the reptilians and forced them to flee underground to other locations in the universe and to other dimensions. The reptilians have been working ever since to regain control of the planet they believe to be theirs and interbreeding with the 'royal' bloodlines of the Nordics was the effective means of doing this. (by this time the Nordics have been infested with the blood of the reptilians so they call them human reptilian priesthood).*

*The Annunaki interbred with Earth races, especially the Nordics and their offspring to create bloodlines through which they can manipulate the world while appearing to be human.*

*The Annunaki 'gods' began to hide their true nature and operated behind the cover of the human-reptilian priesthood who were the only people allowed to 'approach god.'*

*In addition to residing in underground city complexes the serpent race also resides in the lower end of the fourth dimensional frequency range, which vibrates very close to the range of physical human sense in the third dimension. It is a parallel universe. (note: we see from 470 nanometers Infrared laser pointers operate at 680 nanometers almost at the end of that spectrum. So they are saying just beyond that spectrum of 800 nanometers they can see you and you cannot see them).*

*To operate and manipulate our vibrational level of the planet, these fourth-dimensional reptilians need a third-dimensional human form. This was achieved by creating bloodlines that fused their reptilian DNA with that of humans. It is to retain this genetic structure that the Illuminati bloodlines have always interbred with each other the genealogy of those in the major seats of global power today can be traced back to the royal lines (the Annunaki hybrids) that ruled Sumer, Egypt and so on.*

*The theme of ruling ‘royal’ families and emperors claiming descent and their right to rule, from the ‘serpent gods’ can be found across the ancient world. These bloodlines and connections were symbolized by royal emblems in the form of a dragon, snake, sphinx, plumed serpent, or the free-cross or Ankh.*

*The Illuminati (Annunaki) manipulate their bloodlines into positions of power and take over those bodies for themselves as possessed souls. The rituals conducted by the Illuminati-controlled secret societies, like the Freemasons, Knights of Malta, Knights Templar, etc. are one way this is done.*

*These rituals are designed to create a vibrational environment in which fourth dimensional reptilians can access the body. These are the people who become the presidents, prime ministers banking and business tycoons, media owners and others who run or administer the Annunaki agenda. (the Annunaki are at the top and they are using the reptilians of the 4<sup>th</sup> dimension as the infiltrators like the proxy army to run their business. They are the ‘middlemen.’)*

*The worship of the reptilians and their Dragon Queens, and the placing of their bloodlines into positions of power, is the secret of secrets held within all of the secret societies.*

*There are so many reptilian “hosts” (possessed people) in positions of political, financial, media, and military power that they can control the physical world from their dimension while the human population thinks that humans are governing them.*

*The 13 family bloodlines and their offshoots are orchestrating an agenda to takeover the planet. Their agenda demands a world government, central bank, currency and army, underpinned by a micro-chipped population connected to a global computer network.*

*The demonic entities and the malevolent faction of the reptilians are overwhelmingly astral beings that can move between dimensions, thus appearing human one minute and then shape shifting into something else the next.*

*Satanic and secret society rituals are designed to create the means through which these mostly lower fourth-dimensional entities can possess the body of the initiate and also manifest directly in 'physical' form.*

*During sacrifices the physical reptilians and hybrids consume the organs of a physical body, especially the heart, and drink the blood of the victim. At the same time, the lower fourth-dimensional 'demons' or psychic vampires absorb the deeply negative energy generated by such horrors. The vibrational frequency of negative emotion, like fear and terror, resonates to the lower fourth dimensional range or density and so those emotions generate energy for the fourth-dimensional reptilians and demonic entities. Energy = creative power, positive or negative they are feeding off human emotions and they manipulate events in the world to trigger desired emotional responses.*

*A cycle is created in which the astral manipulators use their energy to set up physical events; these events cause emotional reactions that generate emotional energy; this pours into the astral dimension; and the astral entities recycle it back to continue and increase the cycle still further.*

*The reptilians need to drink human (mammalian) blood to maintain human form and stop their reptilian DNA codes from manifesting their true reptilian state. (Thoth explains in the Emerald Tablets the word to show their countenance). This explains why these bloodlines have always taken part in human sacrifice and blood drinking rituals from the ancient world to the present day. This includes people of the headlines like:*

- **George Bush**
- **Al Gore**
- **Bill Clinton**
- **Henry Kissinger**
- **The Rockefellers**
- **Rothschilds**
- **British prime minister like Ted Heath**
- **The British royal family**

*They also want an adrenaline that enters the bloodstream in large quantities at the time of extreme terror (adrenochrome). Hence they have victims who know they are going to be sacrificed and they use the ritual to build their terror to the point of death. This allows them to drink blood full of adrenaline.*

*Reptilian shape-shifters are finding it more and more difficult to hold their 'humans' form. The base resonant frequency of the planet is getting closer every day to the 4<sup>th</sup>-dimensional range. (Note: isn't that interesting, I-Gerald Clark-have been saying for a long time we are moving toward the galactic center and according to Thoth and The Emerald Tablets we are all moving to a different state of evolution of our consciousness due to this energy shift).*

*Sacrificial rituals and blood drinking increased dramatically from the mid-1980s as the vibrational change forced them to work harder to hold human form. It is no coincidence that this period coincides with the completion of their centralized global state.*

***Gerald Clark:*** *I want to stop here and give you all something to consider of the nature of the threat and what can be done. The bottom line from the author of this document, and I have said this myself as well, and it's included in my movie trailers of the Annunaki and Earth, Odyssey Ki. You have a sun soul spirit from the Creator of All. Somebody asked permission from the Creator of All before you were created and the person had to be Enki. He was the one who imparted energy to the first being and manifested us. I think it was 200,000 years ago and this document says 100,000 years ago. It is after the Annunaki came here 400,000 years ago. It is a complicated situation. Here are the three things that came first:*

- ***The Annunaki came first***
- ***They took some of our simian ancestors and modified them and they describe producing the Neanderthal by using them as the slave workers in the mines just as we describe in Odyssey Ki.***
- ***You have to take into account the other 70 species that are Collectives or civilizations that are vying for the same resources.***
- ***Now the symbolism gets quite complicated in these families. We thought the eagle and the snake were pretty straight-forward and between Enlil and Thoth who are representing 2 different realities with human consciousness. Enlil is trying to keep you in a slave state and Thoth is trying to increase human consciousness.***

*Now you have more information on the Grays, the Sirians and some of the other Draconians. The Draconians are the scary ones to me. I think there are massive parallels between the reptilian interview in the encounter with the human and the Draconians. Maybe you will take a look today.*
